Digital / E-Commerce Director

Director Ecommerce; Ecommerce Lead; Head of Ecommerce; Vice President Commerce; Head of Digital; Digital Commerce Leader; Head of Customer Experience; Ecommerce Customer Experience Manager

JOBS TO BE DONE

PROFESSIONAL

- **E-Commerce P&L:** I'm responsible for funnel efficiency and must ensure our customer acquisition is growing and profitable. If a legitimate customer arrives via paid ads but their payment is incorrectly declined, it wastes my ad spend and spikes my CAC.
- **Support Scale:** I want to enter new markets, launch experiences like agentic checkout, and support omnichannel experiences while keeping costs and risks low.
- **Grow Customer LTV:** I have to ensure our customers have the best customer experience. Nothing kills brand loyalty faster than a high friction experience (like a false decline, complicated returns, or an account-takeover).

PERSONAL

- **Agentic Leadership:** I want to be seen as a forward-thinking leader—someone who isn't just maintaining the status quo, but is leveraging AI and Agentic technology to move the needle on the bottom line. For example, introducing new AI shopping experiences.
- **Professional Credibility:** I want to be recognized as the leader who didn't just hit aggressive growth targets, but did so while delivering a profitable P&L.

VALUE

One Sentence Pitch

Forter partners with global leaders like Nike, ASOS, and eBay to slash customer acquisition costs and boost lifetime value by delivering seamless, secure experiences across digital and agentic commerce.

HIGH PRESSURE INDICATORS

What to look for in an opportunity that may indicate an urgency to change?

FINANCIALS

- High % of goods being written off due to abuse
- Refunding any customer claim to keep the customer happy
- High support costs due to refunds, item-not received claims, etc.
- 3DS % higher than 10% in non-regulated markets
- Increasing customer acquisition costs

TECH / TIMING

- Looking to generate a new improved customer experience, such as instant refund
- Looking to support agentic commerce flows
- Expanding to a new region or vertical
- Planning a platform migration (e.g., Shopify/Salesforce): If a merchant is already planning platform migrations, creating ideal implementation timing without additional disruption.

OPERATIONS

- Customer service flooded with calls on returns or item-not-received claims

IMPACT: WHY ACT NOW?

The Case for Immediate Action

AGENTIC COMMERCE	With the rise of agentic shopping, digital teams need to figure out how to promote discovery of their products on these AI platforms, and maximize conversions from their traffic.
AI OPPORTUNITIES	Identify the opportunities for me to use AI to offer differentiated shopping experiences.
NEW CUSTOMER EXPERIENCES	Features like instant refunds or promos can increase acquisition and customer lifetime value, but are also easy targets for abuse. Digital teams want to be able to launch these experiences without losing money to people gaming the system.
PROFITABILITY-FIRST MANDATE	Businesses are being pushed to be as efficient as possible when converting customers. This means that digital teams need to find innovative ways to grow and convert, while decreasing costs.
